Part I, Section B.3 – Constituent Profile of Neat Substance including Impurities

| Constituent | | Area % * | | |
|--|------------|------------|------------|------------|
| | | Minimum | Maximum | Average |
| Notified Substance | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| Impurities | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |

| | [REDACTED] | [REDACTED] | [REDACTED] | [REDACTED] |
| * Note: since the different constituents cannot be isolated, no reference compounds are available and the exact concentration of the different constituents cannot be determined. Therefore, the amount is provided as area % (based on LC-UV measurements). | | | | |
